Jewish Monument Community

If you're interested in Jewish life in the Netherlands, the Second World War or Jewish family histories, then visit www.communityjoodsmonument.nl

This site welcomes you to post and search for information about Jews in the Netherlands, including the persecuted Jewish victims of the Second World War, making it possible for you to find ancestors and connect generations. One of the site's objectives is to preserve the memory of all Jews from the Netherlands who were murdered or who have died during the war, making them an integral part of a dynamic, living community.

You can add your own personal memories, photos and stories on the site, as well as articles and requests for information. In addition, the site includes a discussion forum and enables you to contact other users and exchange information.

The Jewish Monument Community augments the Digital Monument of the Jewish Community in the Netherlands and is an initiative of the Jewish Historical Museum.
